PROJECTS

• Library Portal MERN Stack Application

React.js, Node.js, Express.js, MongoDB

- Developed a full-stack Library Management Portal using the MERN stack, enabling efficient management of student records through a responsive web interface.
- Designed and implemented RESTful APIs with Express.js and MongoDB, supporting complete CRUD operations with Mongoose for data modeling and validation.
- Built a responsive React.js frontend using React Hooks and Axios for seamless client-server communication and secure administrator authentication.
- Deployed the application using Vercel (Frontend) and Railway (Backend), following modern full-stack development and cloud deployment practices.

• E-Commerce Web Application (MERN Stack)

React.js, Node.js, Express.js, Tailwind CSS | Vercel, Render

- Developed a full-stack e-commerce platform with product listing, cart, and order management features.
- Built RESTful APIs for authentication, product, and order handling.
- Implemented JWT-based authentication and secure user access.
- Integrated MongoDB using Mongoose for efficient data storage.

EXPERIENCE

• Freelance Full Stack Developer

Self-Employed

2021 Present

Dandeli, Karnataka, India

- Designed and developed responsive full stack web applications using React.js, HTML, CSS, JavaScript (ES6+), Node.js, Express.js, and MongoDB.
- Built reusable frontend components and implemented dynamic user interfaces with efficient state management for enhanced user experience.
- Developed RESTful APIs and backend services using Node.js and Express.js for seamless frontend-backend communication.
- Designed and managed MongoDB databases, performed CRUD operations, and handled JSON-based data exchange.
- Implemented user authentication, form validation, routing, and API integration in web applications.
- Gathered client requirements, customized solutions, tested applications, and deployed projects for real-world use.

Remote

- Built full-stack web applications using React.js, Node.js, Express.js, and MongoDB (MERN Stack).
- Developed responsive user interfaces using HTML5, CSS3, JavaScript, and Tailwind CSS.
- Implemented RESTful APIs, CRUD operations, and JWT-based authentication.
- Integrated frontend and backend components, handling API communication and data flow.

• Fundamentals Of Web Programming

VTU-National academy for skill development

Oct 2023- Nov 2023

Dandeli, Karnataka, India

- Developed responsive web applications using HTML, CSS, and JavaScript with DOM manipulation and event handling.
- Built interactive UI components and structured frontend logic for integration with backend systems.

• Computer Hardware and Networking

VTU-National academy for skill development

Oct 2023- Nov 2023

Dandeli, Karnataka, India

- Applied networking concepts such as IP addressing and LAN configuration to understand client-server communication.
- Gained system-level knowledge supporting application deployment and troubleshooting.
